DETAILED ACTION

1. The amendments filed July 10, 2008 has been received, entered and carefully considered. The amendment affects the instant application accordingly:

- (A) Claims 1 and 7 have been amended;
 - (B) Claim 13 has been canceled;
 - (C) Comments regarding Office Action has been provided drawn to:
 - (I) 102(b) rejections, which has been withdrawn in view of the amendment to the claims.
2. Claims 1-12 and 14 are pending in the case.

Foreign Priority Claimed

3. This application is a 371 of PCT/EP03/07327 International Filing Date: July 7, 2003, which claims foreign priority to EPO 02077756 under 35 U.S.C. 119(a)-(d). An English version has been filed on December 29, 2004.

Election By Original Presentation

4. Currently amended Claims 1-6 and 14 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The currently amended Claims 1-6 and 14, which are drawn to a single step depolymerization process, are obviously different from the invention of original Claims 1-6 being drawn to a process for preparing a solution of a polysaccharide since the inventions have different designs and modes of operation (MPEP § 802.01 and § 806.06).

Since Applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, currently amended Claims 1-6 and 14 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claims 7-12 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicant's amendment with respect to amended Claim 7 herein has been fully considered but is deemed to insert new matter into the claims since the specification as originally filed does not provide support for "a solid composition comprising a polysaccharide ether and from 2 to 10% of an alkaline depolymerization agent, base on the weight of said polysaccharide ether". Although, the original specification does disclose an alkaline depolymerization agent being present with polysaccharide ether (see page 4 6th paragraph), there is no indications in the specification that the solid composition comprises an alkaline depolymerization agent in an amount ranging from 2 to 10%. It is noted on page 10, 4th paragraph, that this amount of alkaline depolymerization agent may be present with polysaccharide ether in an aqueous solution. Claims 8-12 are also rejected since these claims are dependent from Claim 7.

Consequently, there is nothing within the instant specification which would lead the artisan in the field to believe that Applicant was in possession of the invention as it is now claimed. See *Vas-Cath Inc. v. Mahurkar*, 19 USPQ 2d 1111, CAFC 1991, see also *In re Winkhaus*, 188 USPQ 129, CCPA 1975.

Summary

7. Claims 1-12 and 14 are rejected.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
